

Home Repair Application

Thank you for your interest in Iowa Heartland Habitat for Humanity's home repair program. Our program includes roof replacement/repair, plumbing, electrical, weatherization repairs, handicap accessibility modifications (wheelchair ramps, grab bars, and handrails), and other health and safety related home repairs.

The Home Repair Program is **NOT** an emergency repair program; applicants should expect a months-long waiting period for repair work to be completed. At times our services may only be available in targeted neighborhoods. **Please mail or drop-off your completed application and income verification to our office.**

See next page for eligibility and income verification checklist. Contact Iowa Heartland Habitat for Humanity if you have any questions about completing your application for critical home repair.
