Our **single stream recycling** is only designed to process certain items. Placing non-accepted items into the recycle container contributes to contamination. Contamination in the recycling cart causes many problems, from damaging equipment to creating health and safety hazards. Contamination also reduces the amount of material collected that can be recycled. For this reason, we ask if you aren't sure, call us (319-232-4150).

## ✓ Allowed

### Paper Products

Newspaper  
Junk Mail

Yard Waste

## General Information

All materials are sorted after collection and may be mixed together in your container.

To prevent material becoming stuck, flatten all cardboard and paperboard boxes.

Rinse food and liquid from recyclable items.

**Plastic bags** are recycled through grocers. Please do not place them in your recycle containers.

**Soiled** recyclables are not recyclable. (oily pizza boxes, used paper napkins, etc)

Electronics are not recyclable.
